The Latest Finds

Saint Laurent met his most iconic muses, such as Loulou de la Falaise, with whom he stayed out at the clubs until the wee morning hours. It's that moment of pure free folly that is inspiring winter fashions, and they've been swept up in that Saturday Night Fever. The focus is on a palette that includes all of the nuances of gold. There are sparkling dresses and super sexy accessories, from sky-high heels to architectural jewels, all the way to clutches that seem like gold bars straight from the safe of a rich heiress. Gold continues to play its part as the "pagan idol" to be adored and with which to adorn oneself.
